Use fun rhymes to practice writing your numbers.

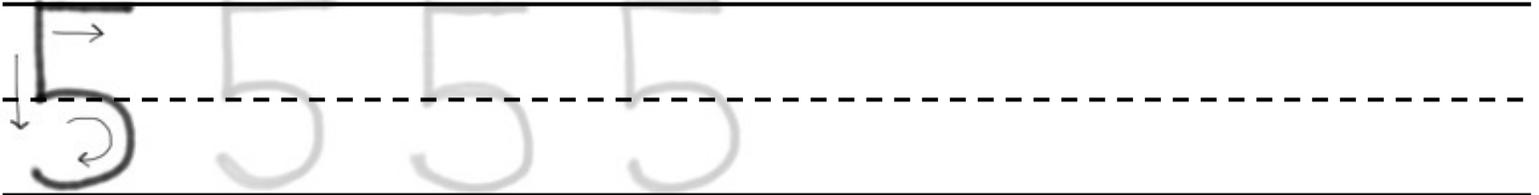

Whee! Whee! Floating down twice makes a happy **three!**

Down and over and down once more, goodness me, you made a **four.**

Five comes down, walks around, and wears a hat when he goes to town.

Read this with me:

Growing up comes a little bit at a time. A baby can't do much of anything when he is born. But as he grows, he rolls over, then he gets up on his hands and knees, then he crawls, then he toddles. Soon enough he's walking and running! Even though you are not a baby anymore, you still have a lot of growing up to do too.

We see the little boy in our book getting older and learning to ride a bike. Like any growing, it's done in small steps: first the tricycle, then training wheels, and then balancing on two wheels...one step at a time.

Every day we have the opportunity to grow up to be like Jesus. Just like learning to ride a bike, it is done in steps and it takes a lot of practice! We start with learning who Jesus is, what he has done for us, and what he wants us to do.

Learning these things and putting them into practice is when we really grow up!

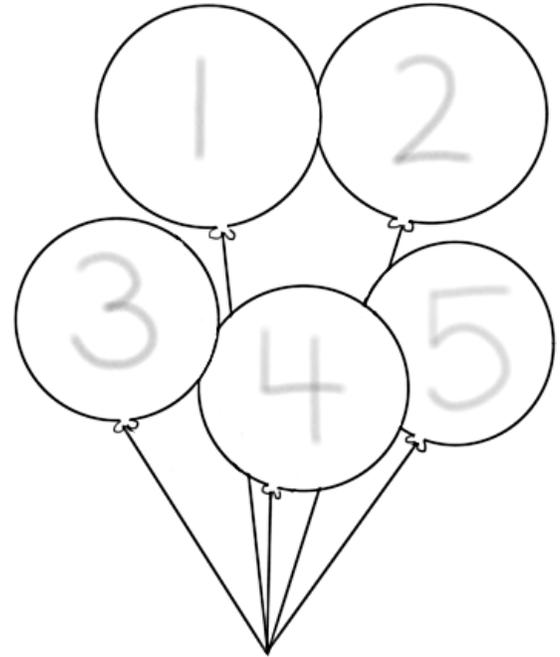

Ephesians 4:15

Thinking Time

Can the boy ride his new two-wheeler yet?
Was Jesus ever a child?
How can we grow up to be more like Jesus?

Trace the numbers, then color the balloons.
