Practice writing the number 10 and its word.

It's real chummy to make a ten. The one and the zero are best of friends.

Trace the number ten word.

Can you write the number and word by yourself? Try on the lines below.

Read this with me:

God gave us ten special rules to follow. Called *The Ten Commandments*, these rules help us to live safe and good lives, loving God and caring for others. Jesus summed up these ten rules when he said, "Love the Lord your God with all your heart, soul, mind and strength, and love your neighbor as yourself."

Matthew 22:36-40

Thinking Time

Ten is a really great number!
How many fingers do you have?
How many toes do you have?

Ten is an even number.
How many hands do you have?
How many fingers do you have on one hand?
How many fingers do you have on the other?
Is it the same with the toes on your feet?

Count all your toes and fingers together.
What number did you come up with? Is it 20?

Draw tally marks below to represent all your fingers and toes. Remember to cross the 5th.

|||| = 4 ~~||||~~ = 5
